DETAILED ACTION

The following is an examiner's statement of reasons for allowance: Claims 1-20 are allowed. The invention relates to compounds having Formula I in claim 1. No prior art of record discloses the instant invention. The closest prior art of record, Khalaf et al, Journal of Chemical Research, Synopses (2000)(6), 264-265 discloses a similar compound having (H)ydrogen attached to the (N)itrogen group of the indole ring. However, the instantly claimed compound has an alkyl or a substituted alkyl attached to the (N)itrogen of the indole ring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
